

*Make a design with polar graphs:*

*Use polar equations to make an interesting AND colorful design.*

*Requirements:*

- *The design must be made with at least 4 equations.*
- *The picture does not need to be labeled but the equations used must be listed.*
- *The polar graph radials and grid do not need to be apparent. If you sketch the graph on blank paper with the graph underneath that is okay.*
- *Make the drawing colorful and creative. No black and white only designs allowed.*
- *Project must be submitted by Friday, March 2, 2012 to receive the full 10 point credit. For every day it is handed in late 5 points credit will be deducted.*
- *You will not be graded on artistic taste but on neatness and on how closely the directions were applied.*

*Enjoy!*
